-8		26 SERIES -8	18.30	12.2		21	V26
-10		26 SERIES -10	21.70	14.7		22	V26
-12		26 SERIES -12	24.50	14.7		22	V26
-16		26 SERIES -16	31.10	15.5		25	V26

Comments
Crimp Diameter Tolerance is +/- 0.010" (0.25mm)
HPD RECOMMENDS that a notched pair of calipers, or ones with caliper tips that will fit into the groove near the skirt end of the shell, be used when measuring the crimp diameter of this style fitting
